Education

- **University of Toronto** | *HBSc, **Physics Specialist**, **Computer Science** & **Mathematics Minor*** | **2024 to 2028**
 - 3.8/4.0 GPA.
 - Varsity Blues Men's Volleyball practice player, Tri Campus Men's Volleyball.
 - Relevant curric.: Practical Phys. I, Thermal Phys., Classical Mech (A), E&M, Intro. to QM., Intro. to Programming & Comp. Sci. (A+, A), ODEs (A), Linear Alg. I & II (A), Foundations of Phys. I & II (A)
- **Merivale High School** | *International Baccalaureate Diploma* | **2021 to 2024**
 - 38/45 IB score, Silver Medal, Ontario Scholar, Honours, StudCo., AthlCo., Sr. Boys' Volleyball Captain.

Experience

- **Ciena** | *Test Engineer Platforms Intern (Vulcan Lab, Product Integration Team)* | **May 2025 to August 2025**
 - Using **Python, TCP/IP, C#, Linux**, electrical test equipment (oscilloscopes, multimeters, test probes) to configure test cases for **I2C, SPI, JTAG, CRC** -based board functions and device bootup programming.
 - Working with SW & HW Design teams to **troubleshoot, debug** test software and product hardware.
 - Implementing Sequencer test platform & Product Limits database to be **deployed globally** to manufacturers and writing user- & developer-friendly **documentation** on deliverables.
 - **Improved test coverage from 65% to 80%** on Control & Timing Module product board
- **Leaside Volleyball Club** | *Coach* | **December 2024 to April 2025**
- **Browns Socialhouse** | *Dishwasher* | **June to August 2024**
- **HiFresh Foods** | *Warehouse Clerk* | **June to August 2024**
- **Kumon Kanata North** | *Centre Assistant/Tutor* | **July to October 2023**

Involvement

- **UT Aerospace Team Space Systems** | *Electrical Team* | **January 2025 to April 2025**
 - (Student-run club developing FINCH: low-earth orbit CubeSat.)
 - **PCB design** project (see below), assessed **structural integrity** of on-board computer's bus connectors.
- **Arts for Seniors** | *Head of Marketing* | **June 2023 to June 2024**
 - Managing media and outreach for student-led nonprofit connecting student artists with retirement homes.

Skills/Projects

- **Python**
 - "NBA Guesser", GUI trivia game. **HTML web scraping** to compile data. Thorough documentation.
 - "Pixel Art Canvas", MS Paint-style GUI. Complex class data representation. Multilayered canvas and exportable drawings. Automation of testing.
 - "Raccoon Raiders!", GUI game using recursion to compile and compute requests. Automation of testing.
- **PCB Design**
 - Used Altium Designer to create **PCB schematic and layout**, configuring I2C, SPI communication on an STM32 microcontroller-based acceleration sensor board.
 - Datasheet, Schematic, RegMap **analysis**, electrical testing with probes, meters.
- **Soft Skills**
 - Trilingualism (**English**, DELF B2 certified **French**, native **Mandarin**), Written communication (Ottawa Library Youth Authors Competition Runner-up), motivated learner, team player, diligent worker.
